ZZ 50-**S** Dissolver Mixer
**Perfect for
Mixing Liquids.**

NEW:
- more efficient motor
- new mixing unit
- new construction: 100% tight

UEZ ZZ 50-**S** Dissolver Mixer

For cement-based grout, self-leveling cement mortar, fillers, dispersion.

Loves your liquids. The UEZ ZZ 50-S dissolver mixer mixes 90 kg of low-viscosity materials in approx. 1-2 minutes with no lumps (dispersing). The dissolver disk is perfect for mixing low-viscosity liquid materials, the dissolver speed is 371 /743 Upm.

The material is added effortlessly through the safety grill directly into the mixer drum. For bagged goods, a tear device is fitted to the safety grill. This way, additional material can be added even during mixing. And the exposed mixing drum means the mixing process can be easily monitored. The mixing drum empties via a drain cock and is therefore easy to dose. The compact and stable steel construction ensures the mixer is secure and safe.

New for ZZ 50-S: A more efficient motor, together with the new high-performance mixing unit, ensures less power consumption with the same mixing result. The completely redesigned drum remains reliably tight even under prolonged load.

Operation is maintenance-free, the ZZ 50-S meets the highest safety standard.

Dust cover with
extractor device

- Mixing speed 371 /743 Upm
- Circle-dissolver, ideal for liquid materials with low viscosity
- For cement-based grout, self-leveling cement mortar, fillers, dispersion, e.g. ECC-based
- maintenance-free gear box
- highest safety standard
- adjustable height

Technical data UEZ ZZ 50-S

Technical data	UEZ ZZ 50-S
Content mixer drum	95 litres
Ready-made mixture	Approx. 50 litres or 90 kg, depending on material consistency
Discharging	Bottom discharge with perforation tap
Mixer	Circle-Dissolver 371 / 743 Upm 81 / 53,2 Nm torque
Motor	1.7/1.3 kW offset gear motor 400 V maintenance-free change-pole motor
Electricals	Motor protection switch for 2 speeds 16 A
Versions	Drivable, 2 solid rubber wheels Many adjustable options with 4 adjustable feet
Safety	Automatic shutdown when safety grid opened Discharge protection CE certified
Dimensions	L 750 mm W 600 mm H 1,300 mm
Weight	120 kg

Subject to technical changes.
